Orchids of Merit

150 Broadmoor, San Anselmo, California

We proudly present our 1950 Spring listings of fine plants and seeds at fair prices.

We request permission to substitute if necessary and will always substitute equal or greater value from stock of crosses of which we have too few to list.

Seed will mature thru Spring and early Summer. It should be ordered in advance, so it can be shipped and sown completely fresh. Our packets contain about 2000 microscope tested seeds, ample for 2-1000 c.c. flasks or 4-500 c.c. flasks.

We ship express collect; Californians please add sales tax. We hope we can serve you; we invite correspondence.

SPECIAL

Deduct 10% on all orders before average shipping date April 1st.

#135, 136, 137 will not be ready until June 1st but still subject to above special.

SEED

per pkt.

- | | |
|--|------|
| #521 Mossiae x Schroederae | |
| Likely to be glorified Mossiae, but a little earlier | 1.00 |
| #5014 BLC. Fred Danker x LC. Aphrodite | |
| Should be good "Mother's Day" flower | 2.00 |
| #4047 LC. Goddess x (BC. Vetchii x Enid) | |
| Vivid pod parent & large pollen parent with
gorgeous brasso lip. | 2.50 |
| #1875 LC. Colmaniana x (LC Pasto x BC Vetchii) | |
| Fine robust parents, blooming season very variable | 2.00 |
| #817 (LC Aphrodite x Enid) x BC. Heatherwood | |
| Both parents medium dark, very large crimson lip,
both parents having vivid crimson splashes on petals | 2.00 |
| #551 (C. Tityus Alba x Titrianae Alba) x C. Ethel Bishop | 2.50 |
| pure white. | |
| The pod parent, a beautiful white petal & sepal, deep
colored gold streaked lip, should have all its fine
qualities intensified by the pure whiteness of the
pollen parent. | |
